

BUT

What happened?

Where exactly are you?

What is your condition?

**How many people are
affected?**

Are there hazards?

How urgent is the situation?

**“How do we turn a person’s request
for help into clear, actionable
information for the people who have
to respond?”**

Before Unified 911 Modernization

48.33%

of calls handled successfully

48.33%

More than half were not
successfully handled.

Before the Unified 911 modernization

The remaining share was more than half of calls.
